Objectives of the Seminar

- To emphasize the importance of open and empathetic communication in the educational ecosystem.
- To explore techniques for enhancing teacher-student rapport.
- To discuss strategies for effective teacher-parent interaction to support students' holistic development.

Content - Banarsidas Chandiwala Institute of Physiotherapy organized a seminar titled "The Power of Communication - Enhancing Teacher-Student and Teacher-Parent Interaction" was conducted successfully on 2nd Dec 2024 to equip its Faculty Members with effective communication strategies to foster stronger relationships with students and parents.

The event began with a keynote address by Dr. Shweta Jha, a Faculty member from Apeejay School of Management, who highlighted how communication serves as the cornerstone of learning and collaboration.

Highlighted the ways to improve Teacher-Student Communication including active listening, using positive reinforcement, and addressing student concerns with empathy. Role-playing exercises were also organized which allowed the teachers to practice resolving hypothetical classroom conflicts / Complaints.

Further, Dr. Pragya emphasized the role of teachers and parents as co-partners in a student education. Practical tips on conducting productive parent-teacher meetings, delivering constructive feedback, and handling sensitive discussions were shared. Later on, Resource Persons focused on identifying and overcoming obstacles to effective communication, such as cultural differences, language barriers, and misaligned expectations.

Participants expressed appreciation for the practical insights and interactive nature of the seminar. Session was concluded with a vote of thanks by Dr. C S Ram.
