

## INDUSTRIAL VISIT TO NCUI ON 15<sup>TH</sup> NOV 2022

An Industrial visit was organised by BCIP on November 15<sup>th</sup>, 2022 in association with NCUI for BPT final year under ED program. The fair was organised at NCUI campus.

The main objective of the visit was to make the students aware and understand about various aspects of entrepreneurship.

Different states exhibiting their own culture and traditions through the products they were selling was incredible. All their products like clothing, decor, utensils, jewellery, various food items, etc. were hand-made which reflects their hard work and uniqueness which motivated students to replicate the same in their lives.

Also NCUI briefed the students from different colleges present there about various entrepreneurship program taken by NCUI.

Overall, it was a good event. Everybody enjoyed a lot along with learning.
