

# **Banarsides Chandiwala Institute of Physiotherapy**

## **Decoration of Walk Ways within the Campus**

**Date: 27<sup>th</sup> September 2024**

### **Introduction:**

On 25<sup>TH</sup> September 2024, Banarsidas Chandiwala Institute of Physiotherapy, New Delhi, conducted a Community Awareness Program centered on sustainable living. The event aimed to educate and empower local residents to embrace sustainable practices in their daily lives.

### **Objectives:**

The aim of the event was to enhance the aesthetic appeal of the institute while promoting sustainability through the decoration of common areas with small saplings planted in eco-friendly planters.

### **Participants:**

**Event coordinator: Dr. Prithvi Parasher**

**Participants:** The event saw participation of 10 BPT students.

### **Activity Description:**

- In the weeks leading up to the event, the organizing team undertook the following:
  - Researched suitable saplings for indoor and outdoor decoration.
  - Sourced eco-friendly planters made from biodegradable materials.
  - Created a decoration plan outlining the placement of saplings throughout the institute.
- Participants planted saplings in eco-friendly planters, which included varieties of plants.
- Teams placed the decorated planters in various spaces within the institute.

### **Outcome:**

- Successful Decoration: Over [insert number] saplings were planted and strategically placed, enhancing the institute's environment.
- Increased Awareness: Educational materials raised awareness about the benefits of indoor plants and sustainable practices.
- Positive Feedback: Participants expressed enthusiasm for future green initiatives and the aesthetic improvements.

### **Conclusion:**

The Eco-Friendly Decoration event was a success, contributing to a greener and more visually appealing campus. Future initiatives will focus on the ongoing care of the saplings and promoting environmental stewardship within the institute.
