

# Webinar on Renal Rehabilitation

## 13/03/2023

**Objective:** To help students and professionals learn the role of physiotherapist in renal rehabilitation.

### Description:

BCIP organised a Free Webinar on Renal Rehabilitation titled “Preparing for the unexpected, supporting the vulnerable” on 13-03-2023. Dr Jayaprakash Jayavelu, Chief Physiotherapist of Narayana Super speciality Hospital, Gurugram was the Resource Person for the webinar.

Sir started the webinar by sharing the importance of physiotherapy in many different disorders and then he explained the main causes and risk factors of kidney disorders. He further shared the effects of kidney disorders on other organs and how it can be prevented. He also shared the details about various treatment options available for kidney disorders, and the Role of physiotherapist in the disorder and Renal rehabilitation post kidney transplant.

The session was informative and a learning experience for students. Webinar was concluded by answering the questions of the audience.
